Captain Odber:

Ordered that the said Wianamow be sent to death here at or
Mary's sometime before three of the Clock this afternoon.

In answer to the last Resolve sent last night from the
Lower House touching the Supplemental Act &c this House hath
resolved upon the Question that unless the Lower House will add
the proviso, sent to them yesterday this House will not consent to
the alteration of the Title of the Bill, nor to the first Amendment
and therefore desire them to consider well of the Bill before they cast
out a Bill so beneficial to the publick in the drawing of which
both Houses have so long laboured as being one of the principal
Ends for which the Assembly was called

The Answer of the Lower House to the Resolve of the Upper
House concerning the supplemental act viz: Resolved upon
the Question that unless the Title of the Act be amended as was
formerly proposed & that Clause at the end of the first para-
graph left out and that the same may pass without the Proviso
this House cannot consent to the passing this Act

Signed by order of Robt. Carville Esq.

Ordered that a member of this House be sent to the Lower
House to let them know that we have received a message from
abato Sequafino & Statsawap & the rest of the Kings upon the
Eastern Shooat near Choptank informing us that in regard they
are joined in League with us & in pursuance of the articles of
peace they have delivered up to our Justice the person of the
murderer of Captain Odber formerly they have done others of
the Wicomico Nation injuries to his Lordship & this Province, The
said Wicomico Nation have drawn into League with them the
Matwhas Indians & others much too strong for the abato
Sequafino & Statsawap so that if they be protected by us, they
are likely to be destroyed

They further shew that notwithstanding they never sold any
Land to the English nor gave permission to seat any Lands on the
South side Choptank higher than Wm Stephen's Creek, yet the
English do daily encroach upon them & even will down amongst them
in their clear fields with their cattle & hogs destroying their
corn without which they cannot subsist

They therefore pray that the Land above Wm Stephen's
Creek as high as the Creek called Seesary Sewall's Creek may be
reserved & laid out for them & that no English may settle within
those Bounds, that they may have protection from his Lordship
it, that we will take some course to protect them again-
